

Metal Cleaners

Product Name	Purpose	Properties Appearance	Density	pH (3%)	Flash Point	Steel	Material Copper	Aluminum	Dilution ratio (%)	Cleaning Method & Temp ©		Characteristics
										Spray	Dipping	
YUSHIRO CLEANER W51H	Light soil cleaning	Light yellow transparent	1.06	7.6		A	B	A	1 3	Room temp 60	Room temp 60	For high pressure spray cleaning process.
YUSHIRO CLEANER W80	Light soil cleaning	Light yellow transparent	1.05	8.7		A	A	A	2 5	Room temp 80	Room temp 80	Low foaming and no deleterious effect on Al.
YUSHIRO CLEANER W85	Light soil cleaning	Light yellow transparent	1.07	9.1		A	B	A	2 5	Room temp 80	Room temp 80	For high pressure spray cleaning process.
YUSHIRO CLEANER W85M	Light soil cleaning	Light yellow transparent	1.06	10.7			A	A	2 5	Room temp 80	Room temp 80	Surerior in aluminum and magnesium
YUSHIRO CLEANER W180	Light soil cleaning	Light yellow transparent	1.04	9.8			B	A	2 5	Room temp 80	Room temp 80	Excellent deterioration and rust properties
YUSHIRO CLEANER W171	Heavy soil cleaning	Light yellow transparent	1.08	8.3			B	B	2 5	50 - 80	50 - 80	For heavy soil such as steel, Aluminum
YUSHIRO CLEANER WRS	Water displacement	Light yellow transparent	0.79		97		B	A			Room temp	Water displacement agent (expect Nonferrous metals)
YUSHIRO CLEANER WRS30	Water displacement	Light yellow transparent	0.81		92		A	A			Room temp	Developed for nonferrous metals water displacement process
